

LESS THAN 90 DAYS

Typical reasons for such a stay are visiting family or friends, a tourist visit, a transit through the Schengen area, a business visit, sports and culture, a short traineeship or a medical treatment.

If you are **not** staying in a hotel, hospital, boarding house or prison, you will go through the following steps:

- Report to the municipality within 10 days of your arrival
- Take along your ID card or valid passport
- Based on your nationality you will automatically receive an **“appendix 3ter” (declaration of presence)**, which is the document that proves your presence on Belgian territory.

This document will be valid for the requested period of stay or for a maximum of three months.
