

REAL ESTATE TAX

Presentation

The Region of Brussels Capital taxes each real estate owner on the value of his property, and sends the tax form yearly, for a period covering the past 12 months.

This tax is due for the property you own and in which you live, of for a property you earn an income from (by letting for example).

Changes in your family situation (as number of dependents), or in the value of the building self (as significant renovation or embellishment works) can impact the amount taxed by the government.

Your tax situation and declaration can easily be updated and processed on the MyTax platform of the Ministry of Finance of the Region of Brussels Capital.
